Highlight UNWIND 2 story colours

PRINCIPLE

- Casual shirt category wall is a mandate at all stores
- Minimum 3 frontal display is a must
- Priority 1- linens and half sleeve shirts (including MS) on this wall
- Priority 2- Mandarin collared shirts
- Do not stack half sleeves and mandarin shirts, they must be hung
- Highlight story colours as shown in RHS image
- No layering on this wall

FOLDING GUIDELINE

- Both sleeves to be folded up till the elbow and alignment to be maintained through out the wall

Regular ceiling elevation

Low ceiling elevation

PRINCIPLE

- Front hang different fits & colours with fit tag for identification
- Highlight different coloured denims to showcase colour options
- 6pcs to be displayed in a stack
- Zip fold to be only on wall. For table & LS wall, follow brick fold
- Denim edit branding and fit guide are a must on top of the wall
- Bleed zero denims to be highlighted via shelf talker

FOLDING GUIDELINE

- Zip fold as shown in below link
- Hanging denims to be folded from bottom- 3 folds of 1" each except Fiji fit (cropped denim)

Shirt placket
alignment fold

PRINCIPLE

- Casual shirts along with khakis & Blazers to be displayed on this wall
- Minimum 2 frontal display with mandatory crew neck layering and top 4 buttons open.
- For top half of the wall:
Priority 1- Plaid & striped shirts in season colours
Priority 2- Printed shirts
- Shirts with details on collar/cuffs/placket must be hung
- No blazers to be used as layering on frontals

FOLDING GUIDELINE

- Regular A4 paper fold for merchandise on shelves
- Both sleeves of hanging shirts to be folded up till the elbow
- Hanging khakis/denims to be folded from bottom- 3 folds of 1" each
- Folded khaki/denim to be regular front pocket fold

PRINCIPLE

- All categories of Tech pro to be displayed together
- Highlight printed tee on front hang without layer.
Rest to be stacked on sides and bottom half to be HS printed shirts in hang along with khakis and blazers.
- In case of 2 TP walls, dedicate one wall only to TP formal shirts. All HS shirts to be displayed on upper half side hang as shown in RHS image. Highlight printed HS shirt on front hang without blazer
- Tech Pro tenet is a must on the wall

FOLDING GUIDELINE

- Regular A4 paper fold for merchandise on shelves
- Display only 4pcs of a style in a pile

Priority 1

Priority 2

PRINCIPLE

Priority 1:

- Join 2 NTs and display 10 khakis on top table
- Single NT display with 5 khakis on top table
- Priority of top table display to be as following: (L-R) Authentic khaki, B91, followed by Tech pro/Relaxed fit Khakis
- Colour flow to be light to dark within the fit

- Dedicate a wall to khaki wherever styles and depth are in good quantity
- Hang different fits and colours
- Priority of hang to be as following: Authentic khaki on front hang, B91 & Relaxed fit khakis on side hang
- Colour flow to be dark to light within the fit

FOLDING GUIDELINE

- Top and middle table- 2 fold with front pocket fold
- Last level- 4 fold as shown in the image
- Stack 6pcs in each style

Collar and flap
detail

PRINCIPLE

- All categories of Luxe collection should be displayed on the same wall
- If fewer styles of shirt are available then display on MS wall as per light to dark wall display
- Pair shoes wherever available under frontal wardrobe display
- Use Tenet and shelf talker to call out the collection

ALIGNMENT GUIDELINE

- Merchandise stacked on shelves to be well aligned with equal spacing
- Size tag is a must in all shirts

*All suits/jackets to be unbuttoned and overlap the button side flap for display

*First button of all shirts to be opened in case no tie is used. Cardboard collar to be used for sturdiness

*Use ties (along with butterfly plastic collar) wherever possible on suit. Pocket square is mandatory in suit as well as blazer

PRINCIPLE

- All categories of the collection should be displayed on the same wall
- If fewer styles of shirt are available then add non iron and P100 shirts to complete the setup
- Front hang shirts must be Non Iron+
- Use Tenet and new shelf talker to call out the collection

ALIGNMENT GUIDELINE

- Merchandise stacked on shelves to be well aligned with equal spacing
- Size tag is a must in all shirts

*Avoid layering front hang articles

*First button of front hang shirt to be opened. Cardboard collar to be used for sturdiness

Collar and flap
detail

PRINCIPLE

- Focus on key colours of the season
- Use printed shirts with suits on front hang
- Hang all printed/mandarin collar shirts on U bars

ALIGNMENT GUIDELINE

- Merchandise stacked on shelves to be well aligned with equal spacing
- Size tag is a must in all shirts

*All suits/jackets to be unbuttoned and overlap the button side flap for display

*First button of all shirts to be opened in case no tie is used. Cardboard collar to be used for sturdiness

*Use ties (along with butterfly plastic collar) wherever possible on suit. Pocket square is mandatory in suit as well as blazer

PRINCIPLE

- Display to be dark to light vertically and also horizontally
- Cut sizes to be displayed size wise on the last row
- Plain white and super white shirts to be stacked on second last row dividing the full sets from cut sizes
- Do not stack mandarin & printed shirts. Highlight them on hanging fixtures of lifestyle walls
- Use India fit tenet on top of the wall
- Use shelf talkers to call out a specific collection if any

ALIGNMENT GUIDELINE

- Merchandise stacked on shelves to be well aligned with equal spacing
- Display max 4pcs collar out and extra pcs to be collar in
- Size tag is a must in all shirts

PRINCIPLE

- Create a separate blazer wall at stores where possible
- Key colours to highlight: Cherry lacquer & Chocolate sauce
- Alternate between light and dark vertically and horizontally for display
- Use a mix of top wear- ES/ET/MS to showcase different pairing options with blazers

ALIGNMENT GUIDELINE

- Merchandise on side hang to be well aligned with 2 finger spacing
- styles must be kept in order of size, starting S-XL

Butterfly plastic
collar

Button side flap
detail

- Display BP suits on single wall (Avoid mixing with ceremonial suits)
- Top elevation to be frontal and bottom elevation to be side hanging
- Focus on shades of Grey and Blue for frontal display

ALIGNMENT GUIDELINE

- Merchandise on side hang to be well aligned with 2 finger spacing
- styles must be kept in order of size, starting S-XL

*All suits/jackets to be unbuttoned and overlap the button side flap for display

*First button of all shirts to be opened in case no tie is used. Cardboard collar to be used for sturdiness

*Use ties (along with butterfly plastic collar) wherever possible on suit. Pocket square is mandatory in suit as well as blazer

Tie knot and flap
detail

PRINCIPLE

- Highlight different season colours on front hang
- Focus on partywear and cermonia suits paired with printed shirts

ALIGNMENT GUIDELINE

- Merchandise on side hang to be well aligned with 2 finger spacing
- styles must be kept in order of size, starting S-XL

*All suits/jackets to be unbuttoned and overlap the button side flap for display

*First button of all shirts to be opened in case no tie is used. Cardboard collar to be used for sturdiness

*Use ties (along with butterfly plastic collar) wherever possible on suit. Pocket square is mandatory in suit as well as blazer

- Casual and formal shirts paper folded and displayed either on the last lifestyle wall
- Shirt stacks to be segregated size wise horizontally

- Jackets & suits to be kept size wise

PRINCIPLE

- Single colour, light to dark shade in a single row
- Arrangement of merchandise to be as shown in the image

PRINCIPLE

- Segregate casual shoes from formal shoes
- Arrange light to dark from top to bottom

Key points to remember

1. For work related occasions: Choose formal palette (BP), lighter coloured shirts and 5 core formal shades i.e. navy, grey, black, beige, brown for trousers, suits or jackets
2. Avoid clash of print/pattern: Make one pattern/print hero of the look and create the outfit around it
3. Pairing shirts with light suits: Choose lighter shirts and match the tie colour with the suit, however if you are proposing a darker shirt with a light suit then do not pair light tie on a dark suit. Instead avoid tie or pick a tie that is darker shade than the shirt
4. While pairing 3 categories (Jacket+ shirt+ trouser): Match colour of any 2 and pick the third piece in a complimenting contrast
5. Pairing accessories: Always match shade of the belt with the shoes and your tie and pocket square with the suit colour
6. Pairing hints from accents: Take the hints of pairing from the garment accents to create a look. For a formal look, if there are no accents then focus on monotone look, use different shades of a single colour

SHIRT TIE PAIRING

Pair lighter shirts and match tie to the waistcoat or pick a darkened shade of the suit

For muted colours like grey and beige, you can pick darker tie/pocket square of the same colour as the shirt

Avoid ties when using a printed/jacquard shirt

Avoid printed shirts under striped/checkered suits

Tech pro combination guide

COMBINATION GUIDE

Pair micro dobies/solid with patterns

Solid can be paired with printed shirts

Do not pair different colours together

Office wear combinations:

1. Prefer light coloured shirts
2. For bottoms- Use navy/black/charcoal grey/brown/beige
